

**SKILLS FRAMEWORK FOR RETAIL
TECHNICAL SKILLS AND COMPETENCIES (TSC) REFERENCE DOCUMENT**

TSC Category	Design and Illustration					
TSC	Photographic Images Manipulation					
TSC Description	Develop output plans, materials and equipment needed to produce required images					
TSC Proficiency Description	Level 1	Level 2	Level 3 RET-DNI-3005-1.1	Level 4 RET-DNI-4005-1.1	Level 5	Level 6
			Review quality of work prints and apply techniques for image enhancement and manipulation to produce optimal quality images	Drive output strategies, materials and equipment needed, clarify and review concepts for final images to meet project requirements		
Knowledge			<ul style="list-style-type: none"> • Elements and principles of design and how they may be used and adapted for image processing • Intellectual property issues and legislation associated with image enhancement, manipulation and outputs • Sustainability considerations associated with photo imaging materials and equipment used in images 	<ul style="list-style-type: none"> • Types of physical properties and capabilities of the equipment and materials used in photo imaging for image enhancement, manipulation and outputs • Characteristics of different materials under different treatments and the potential of these characteristics to achieve different effects • Elements and principles of design and how they may be used and adapted for image processing • Intellectual property issues and legislation associated with image enhancement, manipulation and outputs • Sustainability considerations associated with photo imaging materials and equipment used in images 		
Abilities			<ul style="list-style-type: none"> • Apply selected techniques to enhance and manipulate the images to produce final outputs • Assess qualities and characteristics of work prints or files suitable for enhancement and manipulation 	<ul style="list-style-type: none"> • Develop image output plans, materials and equipment needed to produce required images • Select techniques for image manipulation and enhancement consistent with the concepts, testing processes and purpose of the work
