

Make The Change Integrated Programme Graduation Ceremony

The Make the Change Integration Programme is a 7-month pilot training programme that aims to expose trainees to the various forms of design and help them gain an understanding of fundamentals such as design principles, symbols and colours. At the same time, trainees learn how to use industry-standard applications from Adobe such as Photoshop, Illustrator, InDesign and Dreamweaver. In this way, trainees can create visual communication media such as posters, logos, corporate identities as well as websites and magazines. The pilot batch of 11 trainees from Muscular Dystrophy Association Singapore completed their training on 19 August 2016.

Open Door Programme (ODP)

The ODP is an initiative by WDA and MSF to enhance the employment and employability options for persons with disabilities; by supporting employers in the hiring, training and integration of persons with disabilities. The ODP is administered by SG Enable. The scheme is open to any Singapore registered company who has hired or is interested in hiring, training and integrating Singaporeans or Singapore Permanent Residents with disabilities. Under ODP, these funding support categories are covered: Job Redesign, Capability Development, Training Grants and Natural Support. Please get in touch with SG Enable at opendoor@sgenable.sg or 1800 8585 885 for more details on the funding support categories.
